

Oil & Gas Solutions

Complete Oilfield Support

We deliver comprehensive equipment supply, repair, and manufacturing solutions for the oil & gas industry, adhering to stringent international standards and ensuring maximum reliability in the harshest operating environments.

Key Capabilities:

- Oilfield valve supply, service & repair
- API 610 pump supply & overhaul
- Manifold manufacture
- Repair & recertification of oilfield equipment
- Drill through equipment & accessories

Standards & Codes:

- API 6A – Wellhead & tree equipment
- API 16A – Drill through equipment
- API 16C – Choke & Kill Equipment

API 6A & 16A Equipment

Designed to meet exacting industry standards, our API-certified products ensure reliability and safety in high-pressure operations.

API 6A – Wellhead & Tree Equipment:

- Christmas Trees (loose valves & blocks)
- Flanges – Weld Neck, Blind, Companion, Threaded NPT, Casing, Tubing
- Adaptors, Crossovers, Spacer Spools, Riser Spools
- Studded Adaptors, Tees, Crosses
- Ratings: PSL 1–3 (2,000–22,500 psi); PSL 3G gas (15,000 psi)
- Temperature classes: K through X

API 16A – Drill Through Equipment:

- Diverter Crosses, Flanged Risers, Spacer Spools
- Mud Crosses, Drilling Spools
- Adapters (DSA / Adapter Spool)
- Temperature ratings: 0 through 22,500 psi, temperatures 0–350°F (T-0/350)

API 16C Choke & Kill Systems

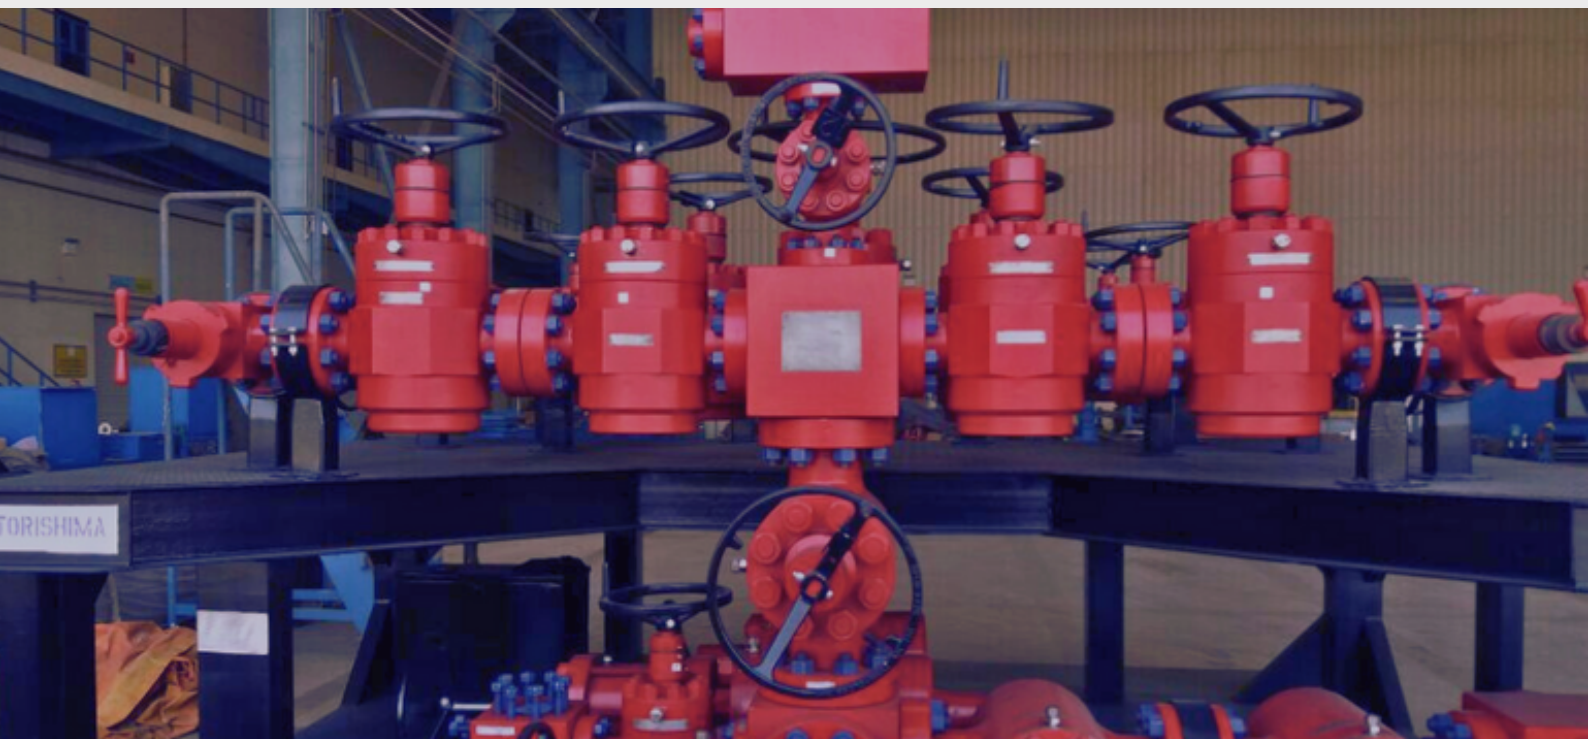

We supply robust choke & kill systems designed to meet the most demanding drilling and well control requirements, with proven performance in extreme environments.

API 16C Equipment:

- Choke & kill manifolds
- Choke & kill lines
- Standpipe manifolds
- Cement pipe manifolds
- Well test manifolds
- Buffer chambers for choke & kill manifolds

Performance Ratings:

- PSL 1–3 (2000–22,500 psi)
- PSL 3G gas testing (up to 15,000 psi)
- Temperature classes K through X

Oil & Gas Services

Our state-of-the-art workshops, skilled engineers, and API-approved processes ensure exceptional quality and reliability across a wide range of oil & gas equipment services.

Workshop & Field Services:

- API pump overhauls & supply (API 610, ISO 5199)
- Valve overhauls, overlays & new part manufacturing
- Machining, welding, coating & fabrication
- Stress relieving & testing (hydro & gas)
- Repairing & recertification of oilfield equipment
- Plasma transfer ARC welding
- DNV / BV approved weld procedures

Manufacturing & Supply:

- Skid assemblies (crude oil transfer, underbalanced drilling, DNV-rated)
- Reconditioned mud pumps
- API & non-API parts for pumps & drilling
- Alloy overlays (SS 316L, Stellite, Hastelloy, SS 410, Inconel 625)

Driving Industrial Evolution

Our History

Torishima Service Solutions operates as a subsidiary of Torishima Pump Manufacturing Co. Ltd, founded in 1919, Osaka, Japan. We have service centres across: Japan, Europe, Asia, Australia, USA and the Middle East

Renowned for our expertise, we provide world-class engineering solutions, specialising in pumps and rotating machinery, oilfield equipment, dewatering pumpsets, chemical injection and dosing packages and API & non-API centrifugal pump packages throughout the Middle East.

Our Vision

To deliver world-class service solutions that maximise the life span and efficiency of plant equipment - powered by teamwork, professionalism, and innovation.
