### Financial Results for the 2Q FY2014

Overall, almost as planned, except for decreased orders received.

This is primarily due to our effort for \*strategically-planned orders received that prioritizes profit rate and quantitative restriction on orders. \*hereinafter called "Strategic Orders Received"

# Financial Results for the 2Q FY2014 (Non-consolidated / Subsidiaries)

- -Breakdown into the non-consolidated results and the subsidiaries results
- -Non-consolidated made a loss, subsidiaries made a profit as previous fiscal year.
- -Decline in gross profit margin is primarily due to provision for product warranties and provision for loss on construction contracts (hereinafter called "provision")
  - : release of provision in FY2013, reverse of provision in FY2014.

The details are shown on the next page.

- Subsidiaries profits increased largely driven by strong growth of some of service subsidiaries.

# Analysis of gross profit margin for the 2Q FY2014 (non-consolidated)

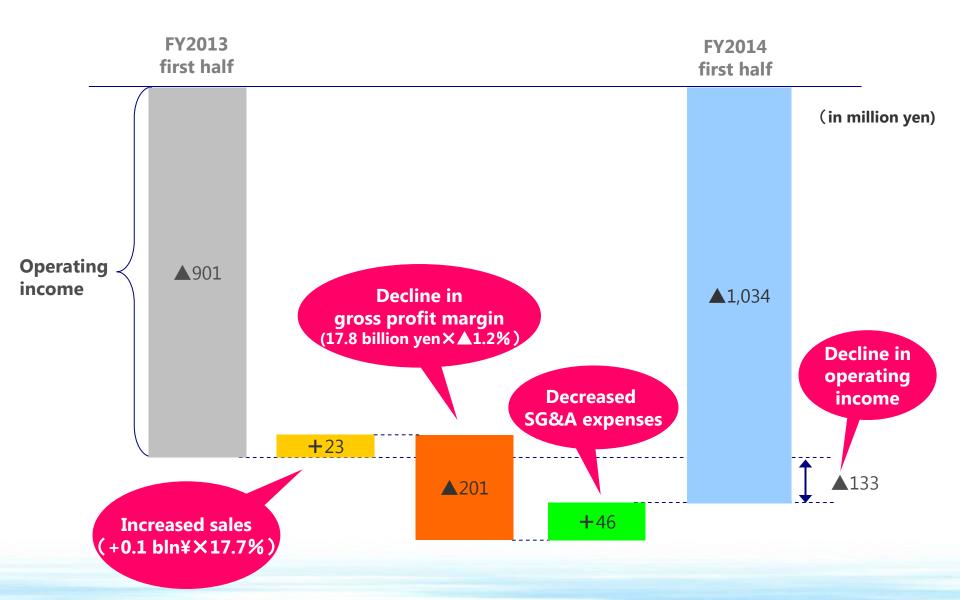

- Gross profit margin declined primarily due to release of provision of 180 million yen (1.4%) in FY2013 and reverse of provision of 240 million yen (1.8%) in FY2014, resulting in a total of 3.2% decline.
- -Subsequently, without the effect of the provision, gross profit margin would have remained at the same level as previous fiscal year.

# Factor of increase and decrease in consolidated operating income

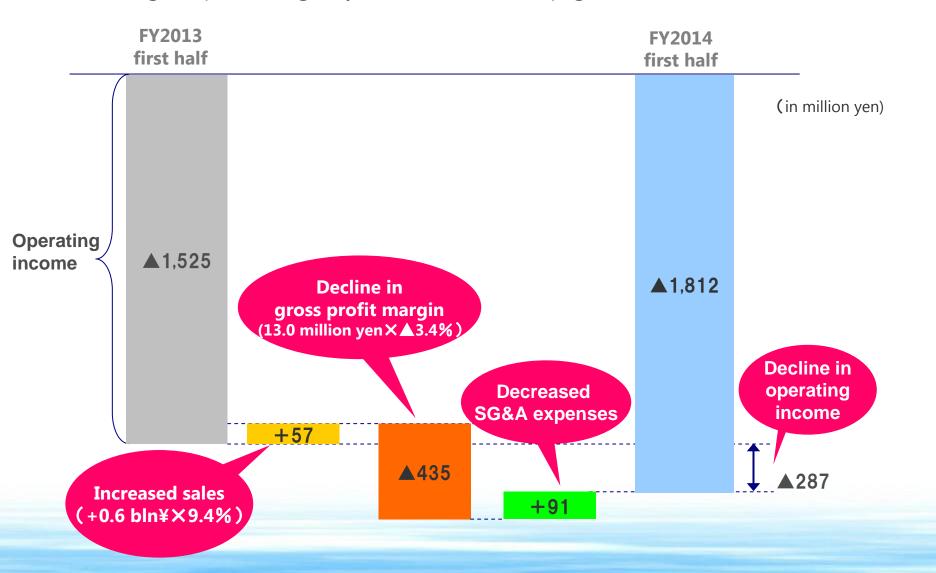

# Factor of increase and decrease in non-consolidated operating income

- Declined gross profit margin by 3.4%. The details as page5 shows.

### Standardization initiative

### Restructuring of manufacturing process

#### 7:3 Rule Standardization initiative

### TIS Project | Platform development

- orders received increased sharply
- •TIS project into a mess
- ⇒ much busier and delayed in standardization

problems

Launched in June 2013 system defects found -> program correction ⇒ additional costs, confusing procedure

**Executing the Strategic Orders Received** 

-schedule to complete standardization 100% by the end of this fiscal year

\* the percentage is calculated by dividing

Tackling the defects / clarifying the rule

- -System defects almost resolved ⇒ costs declined
- -Utilizing the IT system more efficiently and extensively

each pump model's number of orders by the total number of orders in FY2013

**Innovative** manufacturing process

Procurement

Manufacture Insta**llation** 

**After-sales** services

### FY2014 full-year outlook

Improvement of non-consolidated performance is the key to this fiscal year.

Page 9 to 14 describe its current situations and the outlook.

The following is a scenario shown at the previous full-year earnings announcement on 14 May 2014 about improvement outlook of profitability.

Improvement outlook for profitability (non-consolidated)

(as shown in the presentation material of consolidated financial results for FY2013)

1. Sales outlook (increase)

 $\rightarrow$  2.0 – 3.0 bln¥ UP

2. Improve of gross profit margin → 3 - 4% UP

3. Decrease in SG&A

→ 0.3 bln¥ DOWN

1+2+3 => prospect improvement in profitability of 1.8 – 2.0 bln¥

### 1. Sales outlook (increase)

#### Outlook

# Reviewed the original outlook of 2.0-3.0 bln¥UP to the same level (36bln¥) as previous fiscal year

#### Reasons

- Orders received y-o-y considerably decreased due to
   \* the Strategic Order Received (2Q orders received decreased ▲7.6 billion yen)
   \*"Quantity control" that prioritizes promotion of TIS project and 7:3 rule
   \*"Quality control" that focuses on profit rate
- 2. Order backlog remains at the same level as previous fiscal year, thus, sales possibly would stay flat.

## 2. Improvement of gross profit margin (non-consolidated)

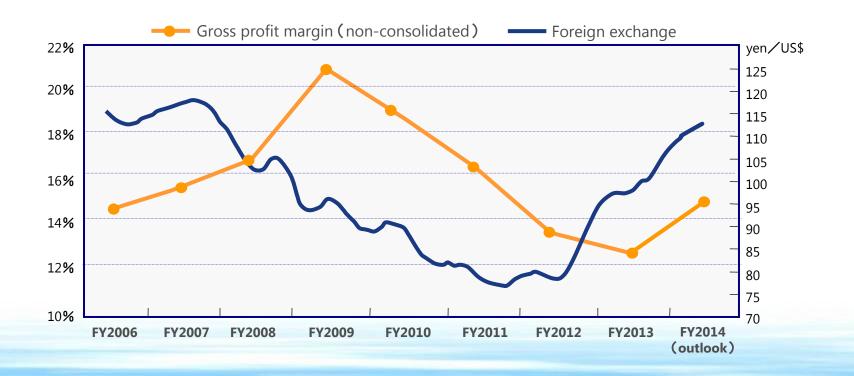

**Outlook** 

Reviewed the original outlook of 3-4%UP to 2-3%UP

Reasons

While depreciation of the yen and the Strategic Orders Received that prioritize profit rate improved gross profit margin, imported material costs were adversely affected by weaker yen, resulting in slightly below the original plan.

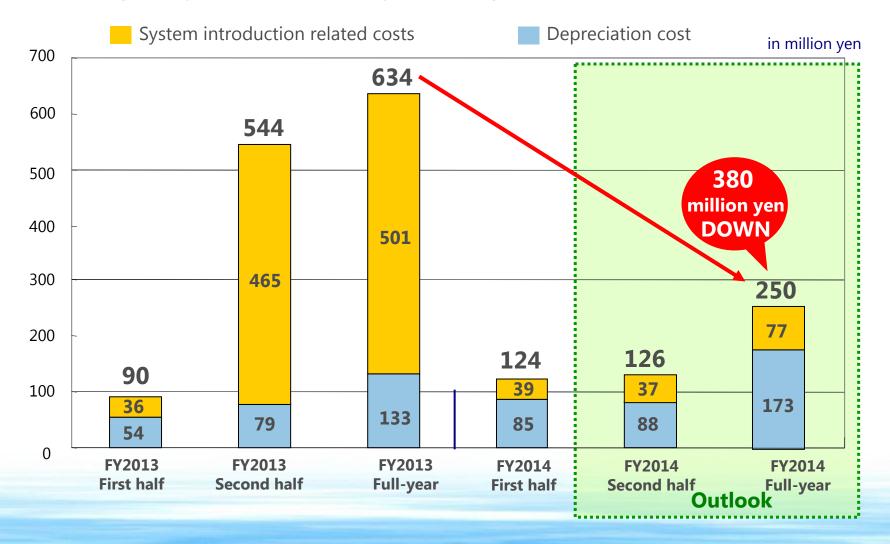

### 3-1. Decline in SG&A expenses (non-consolidated) TORISHIMA

### **[IT system related costs]**

Although IT system related costs had been ballooning at the time of introduction of the system, it has been gradually stabilized in this fiscal year, reducing the expenses.

### 3-2 Decline in SG&A expenses (non-consolidated)

Outlook

Reviewed the original outlook of approx. 0.3 billion yen DOWN to approx. 0.5 billion yen DOWN

Reasons

- -Decrease in IT system related costs
- -Decrease in other SG&A expenses
