- 1. Qualitative information for the first quarter of the FY2011
 - (1) Qualitative information on consolidated results of operations

During the first quarter of FY2011, economies in emerging countries such as China and India continued to grow strongly supported by domestic demand. In contrast, economic growth in USA remained under forecast, and there was severe concern on financial problems in certain countries in Europe. As a whole, the global economy showed a gradual upward trend.

Japan's economy suffered serious damage caused directly by the Great East Japan Earthquake which occurred on March 11, 2011, and remained uncertain because of the concern about the protracted recovery of the affected regions, negative effect in industrial production activities due to unstable power supply circumstances expanding nationwide, the stagnation in consumer spending, the appreciation of the yen due to the financial concern about U.S. dollar and Euro, and the run-up in raw material prices.

The pump manufacturing industry continued steady demand from overseas for water- and energy-related sector. However competition for orders in the industry was under much more severe condition as a result of stagnation of private capital investment and lower competitiveness due to strong yen, etc.

Order received during the first quarter of FY2011 (April 1, 2011-June. 30, 2011) increased by \$7,808 million from the same period last year to \$13,798 million. Order received from domestic public sector increased by \$651 million from the same period last year to \$1,669 million, order received from domestic private sector increased by \$261 million from the same period last year to \$1,507 million and order received from overseas sector increased by \$6,895 million from the same period last year to \$10,621 million.

Net sales during the first quarter of FY2011 (April 1, 2011-June. 30, 2011) increased by \$720 million from the same period last year to \$10,702 million and order backlog at the end of the period (June. 30, 2011) decreased by \$9,818 million from June 30, 2010 to \$50,312 million.

Operational profit during the first quarter of FY2011 (April 1, 2011-June 30, 2011) decreased by ¥353 million from the same period last year to ¥695 million, ordinary profit decreased by ¥78 million from the same period last year to ¥805 million and net profit increased by ¥138 million from the same period last year to ¥589 million.

(2) Qualitative information on consolidated financial position

At the end of the first quarter (June 30, 2011), the Group's total asset was ¥59,679 million, ¥1,499 million lower than at the end of the previous fiscal year (March 31, 2011). Principal changes in asset items included a decrease in investment securities of ¥408 million because of the decline of market value of stocks, a decline in trade receivables of ¥3,280 million and an increase in property, plant and equipment of ¥645 million.
