For 30 years, Torishima Pumps have been supplied in Kuwait!

Doha West II
Seawater Desalination Plant (1985)
 Torishima pumps : 13 units
 Capacity : 392,400 ton/day
 (equiv : 1,000,000 people)

Doha East
Power Plant (1976)
 Torishima pumps : 17 units
 Capacity : 150 MW x 3 units

Sabiya I & II
Seawater Desalination Plant (2006)
 Torishima pumps : 43 units
 Capacity : 227,100 ton/day
 (equiv : 600,000 people)

Sabiya III
Seawater Desalination Plant (2007)
 Torishima pumps : 32 units
 Capacity : 227,300 ton/day
 (equiv : 600,000 people)

Sabiya
Power Plant (1996)
 Torishima pumps : 135 units
 Capacity : 300 MW x 8 units

Shuwaikh C
Seawater Desalination Plant (1979)
 Torishima pumps : 39 units
 Capacity : 81,810 ton/day
 (equiv : 220,000 people)

Shuwaikh RO
Seawater Desalination Plant (2010)
 Torishima pumps : 57 units
 Capacity : 136,260 ton/day
 (equiv : 360,000 people)

Shuaiba Puming Station C
Cooling water pumps for Oil Refinery Plant (2008)
 Torishima pumps : 14 units

Equate Olefin 2
Cooling water pumps for Oil Refinery Plant (2008)
 Torishima pumps : 12 units

Az Zour South Phase I
Seawater Desalination Plant (1986)
 Torishima pumps : 40 units
 Capacity : 261,600 ton/day
 (equiv : 690,000 people)

Az Zour South Phase II
Seawater Desalination Plant (1996)
 Torishima pumps : 48 units
 Capacity : 109,100 ton/day
 (equiv : 290,000 people)

Az Zour South Phase III
Seawater Desalination Plant (2000)
 Torishima pumps : 30 units
 Capacity : 130,920 ton/day
 (equiv : 340,000 people)
